PROJECTS

Team LoveMilkTea / Wayfinder - 1st Place : Hawaii Annual Code Challenge

September 2017

devpost.com/software/ho-okele

- Mobile wayfaring guide developed for the University of Hawaii in collaboration with the ITS department
- Developed marker addition, directional routing systems, and back end database structure using various Google APIs alongside Firebase Database
- Resulted in users accurately finding buildings, eateries, and restrooms within seconds while optimizing routes taken towards their destination

ManoaNow Portal

November 2017 - June 2018

- Built using ReactJS to automate the uploading of client ads and events of the ManoaNow mobile application
- Helped reduced advertising client response time to under 10 minutes as well as over 80% event turn around rate

EXPERIENCE

Software Development Intern at RevaComm - revacomm.com

May 2018 - Present

- Developed automated behavior driven end to end test cases using CucumberJS and NightwatchJS
- Worked with Jenkins GitHub pull request builders and CI/CD to help improve testing efficiency
- Built customized WordPress plugin using PHP for handling events in website development

Assistant Teaching Assistant at University of Hawaii at Manoa

August 2017 - Present

- Help tutor incoming students on homework and in-class assignments using Java
- Self directed a lab session teaching the students how to use stacks and queues

Web Developer at University of Hawaii at Manoa - manoanow.org/kaleo

July 2017 - Present

Ka Leo o Hawaii

- Responsible of maintaining student media organization websites that collectively receive 28,000 views per month
- Developed various dynamic web pages in JavaScript for various university web and mobile applications
- Created event and advertisement systems with JavaScript for use in our mobile application with a 31% increase in clickthrough rate
